

I want to urge you not to rescind the regulations limiting the number and cross-ownership of media by one corporation. What you have done by creating "Broadband" is to facilitate a greater propaganda network via Fox, CNN, and MSNBC than Germany or Russia every had. Given the limited literacy level in the country, you have enabled stations to propagandize 24 hours a day. You should also require broadband networks to generate new programming rather than repeat the same lies over and over again.

Yours sincerely,
Dr. Eugene Simpson
